

INWO decision report

Case: 202410279, Tayside NHS Board

Subject: Workplace safety

Decision: Not upheld

Summary

C raised a number of fire safety concerns with the Board, who investigated under the National Whistleblowing Standards. The Board upheld C's concerns and made recommendations to address these. C was unhappy with the response from the Board and brought their concerns to the INWO.

C stated that no action had been taken as a result of the investigation and felt that the Board had not taken their concerns seriously.

We reviewed the information provided by C and the Board and found that the Board had investigated and responded to C's concerns appropriately and that the action taken to address C's concerns was reasonable.

Therefore, we did not uphold C's complaint.
