

Start of session handout for Confidential Contacts

You have received the following voice mail from 07000 000000:

Hi

Could someone possibly give me a call back, I'm not sure if I've got the right number but I would appreciate a chat with someone. I volunteer with the Hospital Broadcasting Service. Basically I feel like there might be something fishy going on with some of the funding but I don't want to cause any trouble and I only volunteer one day a week. I briefly mentioned it to someone else and was essentially told not to ask questions so I just don't really know what to do. I saw your details on a poster.

Could someone give me a ring? My number is 07000 000000. Oh, and my name is Roger but I don't really feel comfortable sharing any more than that at this point.
