To whom it may concern,

We are a group of nurses and clinicians who have serious concerns about racist treatment of staff. We have examples from our own experience and things that we have heard or witnessed.

If possible, we would like to meet to discuss the concerns and what our options are for escalating the issue.

We have set up this email account specifically for correspondence on this issue and will try to check it regularly.

We look forward to hearing from you soon.

Your sincerely
